## **HUSKEY™ 2000**

### **LUBRICATING PASTE AND ANTI-SEIZE COMPOUND FOR HIGH TEMPERATURE**

#### **DESCRIPTION**

**HUSKEY 2000** is a heavy-duty industrial anti-seize and lubricating paste containing very finely divided metallic particles in a special no-melt semi-synthetic carrier. **HUSKEY 2000** leaves a protective film that seals and protects metal parts even under the most extreme conditions of heat, pressure, steam and saltwater exposure.

#### **USAGE**

**HUSKEY 2000** was designed as a preventative maintenance tool providing complete parts protection on threaded fittings and all metal surfaces subjected to harsh environments or high temperatures to +2000EF.

**HUSKEY 2000** was formulated to fit a wide variety of marine, metal working, automotive, oilfield, construction and farm equipment applications. A few such examples include.

- THREADED FITTINGS
- RIG DRIVES
- SPROCKETS & CHAINS
- CASTING EQUIPMENT
- SPLINES
- LOW SPEED WORM GEARS
- MANIFOLD STUDS & BOLTS
- WINCHES
- BRAKE CAMS & PINS
- CONVEYORS
- VALVE SHAFTS
- SENSORS

#### **ADVANTAGES**

**HUSKEY 2000** is not just another anti-seize/thread lubricant. Unlike conventional products on the market, the maximum blend of metallic solids has been homogenized into a specially designed semi-synthetic lubricating grease which does not contain clay or soap base thickeners. This helps to provide a superior product that will not melt and run out after application. It also helps to reduce friction of metal surfaces and allows easy movement of threaded connections during assembly and disassembly which makes for tighter make-ups and leak free joints. Other advantages include:

- PROTECTS TO +2000 EF.
- REDUCES TORQUE
- PREVENTS CARBON FUSION
- PREVENTS RUST & CORROSION
- EXCELLENT LUBRICITY
- PREVENTS GALLING & SEIZING
- STEAM & WATER PROOF
- CHEMICAL RESISTANT
- EXTREME PRESSURE LUBRICANT
- NON-MELTING

MEETS MIL SPEC. MIL-A-907E

## TYPICAL SPECIFICATIONS

<b><u>DESCRIPTION</u></b> <i>HUSKEY</i> PRODUCT:	2000 ANTI-SEIZE
Color:	Copper Gray
Base Oil	Semi-Synthetic
Thickener	Synthetic
Texture	Buttery
U.S.D.A. Rating:	H-2

<b><u>TESTS</u></b>	<b><u>ASTM TEST METHOD</u></b>	<b><u>RESULTS</u></b>
N.L.G.I. Grade Penetration	-----	1
Unworked	D-217	290
Worked		320
Base Oils Viscosity,	D-445	
SUS @ 100EF		3800
SUS @ 210EF		205
Pour Point, EF	D-97	14
Flash Point EF	D-92	420
Dropping Point, EC (EF)	D-566	None
Copper strip corrosion (24hrs. @ 210EF)	D-4048	1A
Salt Spray Test 5% Salt, 24hrs. @ 95EF	B-117	No Corrosion
Coefficient Friction (LFW-4)	-----	
Static		0.121
Dynamic		0.079
Four Ball Wear Scar, mm (40Kg, 1 hr @ 1200 rpm)	D-2266	0.92
